

A yellow backhoe loader is shown in the process of digging a deep, narrow trench in a dirt field. The machine is positioned on the right side of the frame, with its arm extended into the trench. The ground is uneven and appears to be a construction or excavation site. In the background, there are trees and a clear blue sky with scattered white clouds. The overall scene conveys a sense of active infrastructure work.

GAS DISTRIBUTION AND TRANSMISSION PIPELINE SERVICES

INFRASOURCE

A QUANTA SERVICES COMPANY

A FULL-SERVICE NATURAL GAS DISTRIBUTION AND TRANSMISSION PIPELINE SERVICE PROVIDER.

We deliver comprehensive gas distribution and transmission pipeline construction services designed to meet the growing demands of the energy sector. We have extensive expertise in natural gas transmission pipeline and distribution installation, as well as repair, system upgrades, and maintenance. This ensures safe, reliable, and efficient gas delivery. Specializing in both large-scale transmission networks and local distribution systems, we provide customized gas pipeline solutions tailored to meet the highest industry standards. Whether you need new pipeline construction or system enhancements, we deliver customized, cost-effective solutions built to meet the highest industry standards.

SAFETY TAKES PRECEDENCE OVER ALL BUSINESS PURSUITS AND WORK PRACTICES

InfraSource is committed to the health and safety of our employees, customers, contractors, and the communities in which we work. Our goal is to complete all projects without injuries because it is our duty to do so. We have created an atmosphere in which all of our employees have the opportunity and obligation to take ownership of their own safety and of their coworkers.

We provide and maintain a safe work environment for all our stakeholders so that we can bring all our people home safely each day.

GAS DISTRIBUTION

InfraSource provides turnkey services on natural gas distribution systems — from the town border station to the burner tip. Our team tailors our services to our clients' needs, including design-build services for a new gas distribution system, upgrading or replacing an existing system, or developing solutions to the most complex gas distribution problems. InfraSource serves the most complex gas distribution needs. We have the insight and state-of-the-art equipment necessary to manage maintenance activities to pinpoint potential problems quickly, which enables our customers to manage costs more effectively.

GAS DISTRIBUTION CAPABILITIES

- Distribution Main and Service Installations and Replacements
- New Business and Joint Trench
- Meter, Piping and Relights
- Maintenance and Integrity Management
- Hydro Excavation
- Horizontal Directional Drilling
- Sewer Camera Inspections — Crossbore
- Engineering and Design
- Leak Repair
- Emergency Response and Traffic Control
- Program Management

FUSION INSPECTION

The InfraSource Fusion Collection Program was established to maintain the highest quality standards within our company. Quality is a core value and key to our success as we serve clients nationwide. Our top priority is the safety of our employees and customers. To uphold our standards, we conduct thorough visual inspections of our plastic fusion and mechanical fittings with multiple reviewers. This program enhances the quality of our work and is integrated into every project, providing added value to our customers.

PIPELINES AND FACILITIES

From upstream to downstream, InfraSource is a leading provider delivering a wide range of solutions for the gas pipeline transmission and facility industry. InfraSource has successfully completed pipeline transmission and facility projects in various climates and terrains throughout North America. We specialize in midstream pipeline infrastructure construction.

PIPELINE CAPABILITIES

- Natural Gas and Liquids
- Transmission, Gathering and Storage Systems
- Cross Country and Healthy Urban
- Facilities and Station Construction
- New Construction
- Integrity and Maintenance Service Programs
- Dig Programs
- Hydro-Testing Services
- Horizontal Directional Drilling

CIVIL CAPABILITIES

- Restoration
- PVC/HDPE Conduit and Duct Bank Installation
- Cast-in-Place and Precast Manhole Installation
- Manhole Repair, Re-build and Adjustment
- Horizontal Directional Drilling
- Jack and Bore

THE QUANTA ADVANTAGE

Infrasource is a wholly-owned subsidiary of Quanta Services.

Our relationship with Quanta reduces project durations, mitigates risks, and provides collaborative, thorough infrastructure solutions for our clients.

Leveraging Quanta's highly trained workforce, coupled with a fleet of specialized equipment, enables us to successfully complete projects and contracts of all sizes.

Local Presence and Regulatory Compliance: Strong local relationships with unions and traffic control authorities facilitate smooth project execution and regulatory compliance.

Scalability: Quanta can adjust resource allocation based on project requirements, ensuring efficient use of people power and equipment. Leveraging the knowledge across Quanta's diverse operating units enhances the execution of specialized scopes within projects.
